

The ReliAlert™ XC3 device exceeds the highest level of SAR personal safety standards for cellular devices. The device is made of hypoallergenic materials and was ergonomically designed to fit comfortably on the offender's ankle. It poses no safety hazards to the offender, nor will it unduly restrict the activities of the offender.

The ReliAlert™ XC3 is durable, reliable and certified under cellular and electrical standards, plus environmental stress and durability standards IEC 60068 and IEC 62262 (IK07 level) impact resistance. ReliAlert™ XC3 is shock resistant, waterproof and functions reliably under normal atmospheric and environmental conditions. Below is a chart of ReliAlert™ XC3 device testing and certification.

## ReliAlert™ XC3

ReliAlert™ XC3 Certifications	Date	Certification/Lab Report Number	Regulatory	Elective
FCC (US)	5/2015	TPO-OTD38	✓	
PTCRB (US)	8/2014	Request #: 39557	✓	
CE (Europe)	7/2014	142140157/AA/00	✓	
IC (Industry Canada)	2/2015	6512A-OTD38	✓	
IEC 62133 Battery Safety	12/2014	NL-33876	✓	
UN38.3 Battery Safety	2/2013	NCR18650BD	✓	
IP68 – Dustproof /Waterproof Rating (20ft/24hr)	7/2017	44p17a128		✓
IEC-60068 Mechanical & Environmental Stress	2/2018	t44p17a246		✓
IEC- 62262 Impact Resistance, IK07 Rating	2/2018	t44p18a133		✓
IEC 62368-1 Communication Technology Safety	4/2018	103469529CHI-001		✓
